

BEES

1. How many legs does a bee have?
2. Name the three main parts of the bee and label them on a picture.
3. How does a bee smell and taste?
4.
 - a. Are there times when bees won't leave the hive?
 - b. How do bees stay warm on cold days?
5. Where do bees get the wax they use for their honey combs?
6. Draw and/or color a picture of the following:
 - a. Queen bee
 - b. Worker bee
 - c. Drons
7. How long does a queen bee live and how many eggs does she lay in that time?
8. How does a bee get nectar out of a flower?
9. What do bees make?
10. Observe a bee at work out in a garden. How many different kinds of bees did you see?
OR
Take a trip to visit a bee keeper.
11. Make a craft bee.
12. Taste at least two (2) different types/flavors of honey.

Helps:

2. Head
Thorax
Abdoman

11. Examples: Use yellow & black pom poms, chenille, constructions paper, cookies, etc.

12. Suggestions: Several good videos are available on bees: Moody Presents, Magic School Bus, etc. Check with your local library for availability if you don't own any.
