

# FLOWER WORLD

1. A. What is the difference between a wild flower and a garden grown ( cultivated ) one?  
B. Can some flowers be either one?
2. Draw and/or color a bouquet of flowers.
3. Collect ten flowers, dry, press, mount, and label then with their common names and where they were collected. ( A parent or adults help is recommended )
4. Make a craft, such as a bookmark, out of one of your dried flowers. Give this to a friend, shut-in, or parent, as a gift.
5. Memorize a text from the Bible that is about flowers.
6. Find a flower in bloom and observe it. Tell what insects or creatures visit it during you observation.

## HELP:

1. Wild-Grow without the help of anyone but God, usually out in the woods. Garden ( cultivated )—grow in a garden or planter, taken care of by humans.

5. Example: Isaiah 40:8
