

GOD'S OCEANS

1. Take a trip to the beach and see what you can find.

OR,

Go to an aquarium store that has salt water fish and

observe seven (7) different kinds of fish, coral or sea creatures (lobster, crabs, shrimp, etc.)

2. Name two (2) oceans. Know where the Gulf of Mexico and the Atlantic Ocean is.
3. What day was the ocean separated from the Land? What day were sea creatures created?
4. What are tides? What happens at high tide and low tide?
5. Identify ten (10) different sea creatures. (Sea anemones, fish coral, lobster, octopus, squid, etc)
6. Draw or color a picture of your favorite sea creature.
7. Make and label a picture of five (5) different sea creatures. May include: Shells, sand dollars, lobsters, etc
8. Of what use is the ocean to us. Name five (5) things

HELPS:

2. Show children a map of the U.S. and locate the Pacific and Atlantic Oceans. Observe the Gulf of Mexico and Atlantic Ocean and discuss where they are in relation to Florida

4. Encyclopedia or story book

5. A good picture book of sea creatures or video.

7. Find different shells, etc., at a shell store.

Make a picture including different things, not just shells. Maybe a crab skeleton, sea weed, etc.

8. 1. Play in the water
2. Windsurfing
3. Water games
4. Water skiing
5. Canoeing
6. Paragliding
7. Motor boating
8. Pleasure cruises
9. Sailing
10. Food
11. Row boating
12. Shells to enjoy, find and learn the names
