

ROCK HOUND FUN

1. Name the three types of rocks. Tell how they are formed and where they can be found.
2. Collect at least three of each type of rocks. Classify, identify, and mount for display. Note where in the world you found it. Example: Petosky Stone, Petosky Beach Michigan.
3. In the Bible there are several references to rocks. Use your concordance and "hound out" scriptures that tell us about the most Special Rock. Write these texts on an index card, then add to your collection.
4. What are minerals? What did God do with them? How does man use them? Make a list and discuss with other Adventurers. Look around your house and share what you find.
5. There are more than 2,000 different kinds of minerals. Collect at least three and mount and label with your rocks.
6. How many kinds of minerals can you find in the Bible?
7. Make a list of native rocks and minerals in your area or region in the states. Are there special rocks found on other places? How far beneath your house is the rock bed? If your parents do not know, check with a local well driller.
8. Tell/sing two stories/songs from the Bible where rocks or stones are important.
9. A few years ago, a man devised an interesting idea-Pet Rocks. He made a lot of money from a simple thing that almost anyone can do. Make a picture of an object using rocks. Maybe, make your own pet rock.
10. Visit a rock store, gravel yard, quarry, museum, precious stone collection, or even a tombstone engraver. Ask questions.

HELPS:

6. Exodus 28 and Revelation 21.
8. Only a Boy Named David, and Wiseman/Foolish Man.
